Blue Cross & Blue Shield of Rhode Island (BCBSRI) has been providing superior health insurance to Rhode Islanders for 75 years. As the state's leading health insurer, BCBSRI covers more than 600,000 members and offers a full range of products and plan designs to meet the needs of RI's small businesses. Products range from traditional plans with first-dollar coverage to HSA compatible, high deductible health plans and value based benefit designs. The BCBS national network has a significant size advantage nationally with 96 percent of hospitals and 93 percent of primary care physicians. You can find more information about BCBSRI by visiting www.bcbsri.com/about-us.

BCBSRI is a nonprofit health insurer with a mission to improve members' health and peace of mind by providing access to affordable, high-quality healthcare.

VantageBlue SelectRI is a tiered network plan that combines traditional benefits, such as predictable flat dollar copayments for services such as primary care, specialist and emergency room visits, with added features and incentives for healthy living, such as \$2 copayments for certain maintenance medications.

Because VantageBlue SelectRI plans feature our national preferred provider organization (PPO) network, members **do not need a referral** from their primary care physician to visit a specialist and they have the option of seeing any provider in our nationwide network but can save money by using our local tier 1 providers. Members also have coverage if they see an out-of-network provider.

This is a summary of benefits. It is not a contract. For details about coverage, including any limits and exclusions not noted here please refer to the Evidence of Coverage (also called a Subscriber Agreement) or call a Customer Support Representative. If you have any questions about receiving medical care, please call your doctor.

When you see a network provider, you pay:

DEDUCTIBLE: You pay this amount each year before BCBSRI starts to pay the cost of covered services	\$2,000 Individual Plan / \$4,000 Family Plan
OUT-OF-POCKET MAXIMUM: This is the most you would pay out of pocket each year	\$3,500 Individual Plan / \$7,000 Family Plan

Copayments/Coinsurance

	Tier 1	Tier 2
Preventive Care	\$0	\$0
Primary Care Office Visits	\$10	\$10 up to age 19 \$30 age 19 and older
