

Management of the Rhode Island Health Benefits Exchange  
d/b/a HealthSource RI

We have audited the statement of revenues and expenditures (the financial statement) of Rhode Island Health Benefits Exchange d/b/a HealthSource RI (the Exchange), a function within the State of Rhode Island, for the year ended June 30, 2024, and have issued our report thereon dated November 21, 2024. Professional standards require that we communicate to you the following information related to our audit.

**Our Responsibility under U.S. Generally Accepted Auditing Standards (U.S. GAAS) and Government Auditing Standards**

As stated in our engagement letter dated September 26, 2024, our responsibility, as described by professional standards, is to express an opinion about whether the financial statement prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statement does not relieve you or those charged with oversight of the Exchange of your responsibilities.

In planning and performing our audit, we considered the Exchange's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statement and not to provide assurance on the internal control over financial reporting. As part of obtaining reasonable assurance about whether the Exchange's financial statement is free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit.

**Significant Audit Matters**

***Significant Risks***

In our engagement letter, we identified the risks we expected would meet the definition of significant risks pursuant to U.S. GAAS, which are risks toward the upper end of the risk spectrum based on their likelihood and potential magnitude. Through the conclusion of our audit of the financial statement, we have not identified any additional significant risks.

***Qualitative Aspects of Accounting Practices***

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Exchange are described in Note 3 to the financial statement. No new accounting policies were adopted and the application of existing policies was not changed during the year ended June 30, 2024. We noted no transactions entered into by the Exchange during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statement in the proper period.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statement was the disclosure of commitments and contingencies in Note 4 to the financial statement.

The financial statement disclosures are neutral, consistent, and clear.

***Difficulties Encountered in Performing the Audit***

We encountered no significant difficulties in dealing with management in performing and completing our audit.

***Corrected and Uncorrected Misstatements***

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. There were no such misstatements identified in connection with our audit.

***Disagreements with Management***

For purposes of this letter, a disagreement with management is a disagreement on a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statement or the auditor’s report. We are pleased to report that no such disagreements arose during the course of our audit.

***Management Representations***

We have requested certain representations from management that are included in the management representation letter dated as of the date of this letter.

***Management Consultations with Other Independent Accountants***

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the Exchange’s financial statement or a determination of the type of auditor’s opinion that may be expressed on the statement, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

***Other Audit Findings or Issues***

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Exchange’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.
