

REPORT TO THE TRUSTEES

October 19, 2021

The Trustees
Healthsource RI Trust

Dear Trustees:

We have audited the financial statements of Healthsource RI Trust (the Trust) as of and for the year ended June 30, 2021. Professional standards require that we provide you with information about our responsibilities under auditing standards generally accepted in the United States of America and Government Auditing Standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter. Professional standards also require that we communicate to you the following information related to our audit.

Significant Accounting Policies

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Trust are described in note 2 to the financial statements. As described in note 2(e) to the financial statements, the District adopted Governmental Accounting Standards Board (GASB) Statement No. 84 - "Fiduciary Activities," during the year ended June 30, 2021. We noted no transactions entered into by the Trust during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statement in the proper period.

Management has omitted the Management's Discussion and Analysis that is required by accounting principles generally accepted in the United States of America to be presented to supplement the financial statement. Such missing information, although not a part of the financial statement, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statement in an appropriate operational, economic, or historical context. Our opinion on the financial statement is not affected by this missing information.

Accounting Estimates

Accounting estimates are an integral part of the statement of net position prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the statement of net position and because of the possibility that future events affecting them may differ significantly from those expected.

For the year ended June 30, 2021, we evaluated the key factors and assumptions used by management in determining that accounting estimates were reasonable in relation to the financial statements taken as a whole.

Sensitive Disclosures

The financial statement disclosures are neutral, consistent and clear. Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. There were no such disclosures affecting the financial statement.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit. Management and accounting personnel were very helpful in assisting us during our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. No such misstatements were detected as a result of our audit.

Disagreements with Management

For purposes of this report, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Trust's statement or a determination of the type of auditors' opinion that may be expressed on that statement, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management prior to our retention as the Trust's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

With respect to the supplementary information accompanying the financial statement, we made certain inquiries of management and evaluated the form, content and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statement. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statement or to the financial statement themselves.
