Understanding Your Health Insurance Network Options and Coverage

Preferred Provider Organization (PPO):

You will pay less if you use hospitals and doctors in the plan’s preferred network, but you are often free to see providers who are not in the preferred network.

Health Maintenance Organization (HMO)/ Point of Service (POS):

You agree to use only providers who are part of the network. In some plans, you must choose a Primary Care Provider, who coordinates your care.

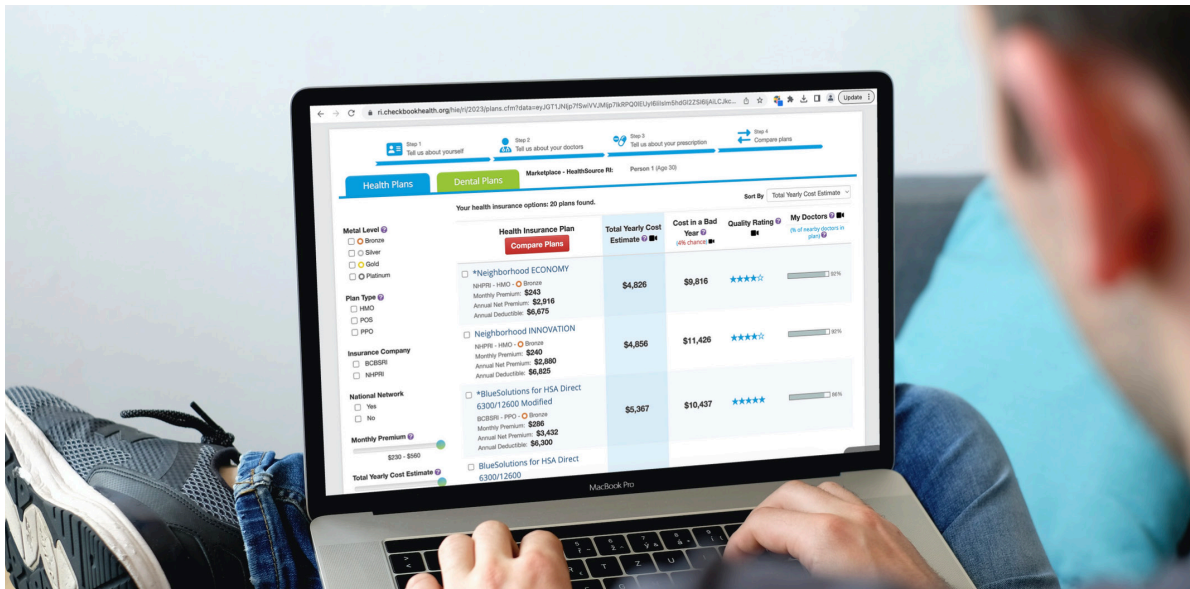

Cost Sharing Reduction (CSR) plans are Silver plans that have reduced deductibles, coinsurance, and copayments. You may qualify for CSR plans if you earn less than \$36,450 for an individual or \$75,000 for a family of four.

All HSRI plans for Individuals and Families cover **pediatric dental services**. Preventative pediatric dental services are not subject to the deductible but other services may be. Please check with your insurance company.

Some insurers offer plans that include a smaller number of providers that offer high-quality care at a lower cost. Plans have different monthly premiums and out-of-pocket costs for care, as well as different providers (like doctors and hospitals) you can visit. The providers included in a plan’s network – and how those providers are paid for the care they give you – helps determine how much you will pay for your health insurance plan. Some plans assign levels (“tiers”) to doctors and hospitals within their networks, and you may pay less to see providers in certain tiers.	HSA QUALIFIED	No	No	Yes	No
